

## DATASHEET

# dominKnow Platform

**The dominKnow Platform is a cloud-based authoring and publishing solution combining three different content development modes, designed to meet your current and future learning needs.**

All your project assets are stored in one central, private and secure location so authors anywhere in the world can access or re-use content at any time.

### Uncompromised Authoring

The dominKnow Platform includes all the features you need to create engaging, media-rich content for any type of learning experience - formal or informal.

This award-winning platform outputs HTML5 and WCAG AA compliant content and publishes to SCORM, AICC, xAPI and PENS standards.

With multiple publishing modes, your content is ready for delivery from virtually any location - be it the web, your own LMS, desktop or print. Your team can easily create online, offline and mobile learning as part of their natural workflow, with no add-ons or special configurations necessary.

You can start designing and delivering media-rich learning experiences right away with the dominKnow Platform. Its intuitive interface and layout was designed to take full advantage of what you already know, meaning less time familiarising yourself with the tool and more time creating content.

### Collaborate in Realtime

Harness the power of your team (authors, designers, experts) with real-time collaboration and review

### Share and Re-Use Resources

Quickly access, repurpose or re-use content across any project, at any time

### Engage Reviewers

Get feedback from subject matter experts, wherever they are located, on the devices they choose to use

### Be Ready for the Future

HTML5 compliant output ensures your training is accessible on today's and tomorrow's technology

### Author Once, For All Devices

Responsive and adaptive output lets you author once for all devices, from a single source

## dominKnow Platform

### Choose the mode that fits the learning need

The three authoring modes available in the dominKnow Platform allow authors to create content in an environment that suits the specific learning need.

### Flow

Flow outputs fully responsive and adaptive content so you don't have to worry about specific devices or multiple versions of the same content.

### Claro

Claro content is designed for fixed layout eLearning, but are HTML5 based and scalable for viewing on desktop computers as well as mobile devices.

### Capture

Capture enables content Authors to create software simulations for stand alone use or integration with other learning content.

### Key Features:

- Cloud-based authoring with intuitive interface
- More than 100 fully editable templates
- Create and share your own library of templates
- More than 5,000 characters and images
- Advanced authoring features including wizard-based customisable testing, practice questions, image editing, animation creation, audio/video, screen capture and screen video recording, bibliography and glossary creation
- PowerPoint wizard for point-and-click conversion of presentations to online learning
- Media Library for uploading, storing, tagging, searching and tracking images, audio, video and other multi-media content
- Workflow and collaboration tools, including co-content creation and reviewing, with robust tracking and reporting capabilities
- Publish content anywhere: online, thirdparty LMS, desktop, performance support training, smartphone or tablet, with HTML5 compliant content
- Mobile Player enables access to training content from any mobile iOS or Android device without the need for continuous internet connectivity
- Fully SCORM, AICC, xAPI, PENS and Section 508 conformant, offering future proof compatibility with existing and emerging content standards

### About Larmer Brown

Larmer Brown has provided change management and learning solutions to corporate clients since 1984. Our primary objective is to help organisations with the implementation of learning initiatives through content development and training delivery programs.

Larmer Brown is a UK-based Reseller and Services Partner for dominKnow Learning Systems offering their award-winning platform to support our clients' learning initiatives.
