### About Larmer Brown

Larmer Brown has been delivering learning solutions to corporate clients since 1984. Our services have evolved in order to deliver a portfolio of offerings to support clients through each phase of their learning project, system implementation or upgrade.

The Larmer Brown Platform is a comprehensive and powerful authoring and delivery solution for all of your learning content. Available either via a hosted annual subscription or on-premise as a perpetual licence.

The Larmer Brown Platform helps organisations manage all aspects of modern corporate learning, such as rollout and performance support, change management, compliance, and soft skills training. In addition, it delivers next-generation, in-application user assistance to support users in the moment of need.

As the pace of change increases in the digital age, more jobs require people to constantly adapt to new business processes. The Larmer Brown Platform helps you create and deploy eLearning, user documentation, on-demand documentation, context-sensitive help, test scripts, and more – all with simplicity and speed.

There is much to learn to be able to utilise the Larmer Brown Platform effectively and efficiently to support your development project. In addition to becoming skilful in recording and editing, it is vital that your environment is correctly configured, and you set standards for the look, feel and function of your content.

### Discovery Workshop

Our Discovery Workshop comprises a series of carefully planned sessions that efficiently prepare your organisation to achieve maximum benefit from the Larmer Brown Platform.

Delivered by our experienced Consultants, these sessions will guide you through the discovery and mobilisation phases of your project to ensure that your team is fully prepared for implementation.

Our Discovery Workshop encompasses three key areas:

1. Larmer Brown Platform Features and Functions
2. Content Development and Deployment options
3. Prototype Development and Documentation

### Who Should Attend

- Project Manager and/or Training Lead
- Lead Content Authors
- Administrators
- Other Project Stakeholders, as necessary
